PROFESSIONAL SUMMARY

Fullstack developer and founder with experience shipping production systems across government infrastructure, e-commerce, and fintech. Self-taught since 2020. Currently leads Identris Systems Limited, a Nigerian technology company building identity, web, and infrastructure systems for businesses, NGOs, and government parastatals. Comfortable owning a project end to end, from backend architecture and database design through to a shipped, branded frontend.

PROFESSIONAL EXPERIENCE

[Identris Systems Limited](#) | **Founder & CEO**

Nigeria

May 2026 – Present

- Lead a Nigerian technology company building identity, web, and infrastructure systems for businesses, NGOs, and government parastatals.
- Delivered a biometric enrollment system for the Ebonyi State Local Government Service Commission, covering fingerprint and photo capture across all 13 local government areas. Built on React and Node.js with Supabase, Cloudinary, and Railway; field hardware includes SecuGen scanners and Logitech cameras, with Starlink handling connectivity where standard infrastructure does not reach.
- Also built the Commission's public facing government portal, including a role based dashboard covering Super Admin, Admin, Media, and Audit access over employee records, news publishing, and audit trails.

[Nkowa](#) | **Founder**

August 2024 – Present

- Founded a fashion brand built to bring misunderstood, misconceived, and neglected parts of Igbo culture to light through fashion, then personally built its full digital infrastructure: storefront, order and inventory system, and an admin dashboard running the business day to day, on Next.js and Supabase.

[Product-X](#) | **Freelance**

Lagos, Nigeria | October 2023

- Built an interactive e-learning platform helping new tech enthusiasts navigate skills across frontend, backend, UI/UX design, graphic design, and data analysis, with course browsing and lead capture on Next.js and MongoDB.

[IFMBE](#) | **Freelance**

Owerri, Imo State | April 2023 – June 2023

- Wrote the API requests for fetching resources.
- Designed a seamless user interface for the application to aid navigation.

Freelance Developer

Lagos, Nigeria | April 2023 – Present

- Developed optimized and scalable web applications for clients, including e-commerce, blogs, websites, and portfolios, resulting in 2x client satisfaction.
- Used technologies such as Node.js, React, and Express, enhancing performance by 50%.

PROJECTS

- [CityScout](#) — Full-stack real estate platform for a Nigerian realty business; public property and blog listings backed by an admin dashboard. Next.js, TypeScript, Tailwind CSS, Supabase.

- [NIBE Membership Platform](#) — Full-stack membership platform for the Nigerian Institute for Biomedical Engineering: member registration, CPD course information, member profiles, referral tracking, and a blog and resource library. React, Node.js, Express, MongoDB.
- **Deriv Trading Bot** — Automated trading system for Deriv synthetic indices via MT5: four hour trend and order block detection, fifteen minute fair value gap entries, structural take profit levels, and volatility adjusted position sizing. Python.
- [Final Year Project](#) — IoT security system streaming live video and real time motion alerts from an ESP32 camera, built as a Bachelor of Engineering capstone. React, Node.js, Express, Socket.IO, MQTT.
- [Cartly](#) — E-commerce storefront built to practice full-stack checkout flows: real authentication, a persistent cart, and an admin dashboard with image upload. React, TypeScript, Supabase.
- Also built: a hash lock dApp on Nervos CKB to learn the Cell model directly, and a [memory matching game](#) for the MightyMeld hackathon.

EDUCATION

Bachelor of Engineering

Federal University of Technology Owerri

2020 – 2025

SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Vite

Backend: Node.js, Express, MongoDB, Supabase, PostgreSQL, REST APIs

Other: Python, Git and GitHub, Socket.IO and MQTT for real-time systems, blockchain fundamentals with Nervos CKB

Soft Skills: Leadership, Teamwork, Collaboration, Communication, Focused, Motivated
